MR. LABOUCHERE'S VIEWS

ON THE CHANCES OF THE HOME RULE BILL.

The Only Thing That Can Defeat the Measure-Mr. Blaine's Portland Speech.

LONDON, June 3 .- Mr. Labouchere writes to the News: The number of Liberals who are certain to oppose the second reading of the Home Rule bill is eventy; therefore if the bill be defeated, it will be through adroit maneuvers by wire pullers of the Harrington and Chamber an combination. It was understood Hartingtonians would be excluded from the Chamberlain meeting. As a multer of fact all the objectors to the details to the bill, who avowed that they were a taffed with Gladstone's concessions, were excluded, while the presence of a strong contingent of Hartingtonians was secured. Fiftyfour members attended the meeting. Four of these tayored the bill and twelve favored abstention from vot-Deducting the twenty-two Hartingtonians who were present, there were, therefore, sixteen opposed to voting against the bill and sixteen in favor of opposing the measure. The net was spread and the birds walked into it. I hope these gentlemen will escape from the toils before it is too I would suggest to the objectors to the details of the bill, who have harried into pledges and promises, and who, realizing the trickery by which those promises were obtained. are recovering that independence of action of which they bosst, that they reserve their decision as to how they will vote until they have beard Mr. Gladstone define his position at the end of the detale. Had he been a persistent enemy of Liberal progress, instend of a leader of that party, they could not treat him with more con-CONFIDENCE IN GLADSTONE'S TRISH

POLICY.

One hundred Non-Confermist ministers of Derby and Nottingham have shop their anger was great. Gladstone's Irish policy. The Rev. Mr. Spurgeon, one of the signers, has written a second letter, in which he asks if it is impossible for those de mirous of the welfare of Ireland and the unity of the empire to device a more acceptable scheme. "I cannot," and Mr. Spurgeon, "look forward with completency upon the possibility of the U sterites being abandoned and of an established Irish Catholic Church: yet there are by no means the greate t evils we foreses in the near future should the suggested poliey become a fact."

THE "TIMES" ON MR. BLAINE'S PORT-LAND SPENCH.

Times, commenting on Mr Blains's Pertiand speech, says: "Mr. Blains msy or may not ca'ch the Irish yo'e by performances such as that of Tuesday's speech and so win the prize which fully as much on personal as on political grounds has been snatched from him once and sgain; but we re-fuse to believe that his ignorant and presumptuous raut represents the nonest and independent opinion and reflection of the Americans. It is peculiarly absurd that he should pose as the advocate of a plan which he supposes, quite wrongly, of course, would place Ireland in the position of a State of the American Union. He has been conspicuous, for the same reasons which now make him a flatterer of the Irish, to the bloody shirt campaign against Southern State rights, and if eny Southern State should now attempt to deprive negroes of auffrage he would be the first to favor the resof that local affair by the armed interference of the Central Government. His history is a'most on a par with his reason, which deserves to be classed with Sir William Vernon Harcourt's atest contribution, whereon Mr. Lecky has 'something to say.'

What Mr. Leeky has "to say" is con-tained in another co'umn of the Times in the form of a letter. This is a criticism of Sir William's argument that the home rule measure proposed by Mr. Gladstone simed at simply the revival of Henry Grattan's Irish Parlia ment. Mr. Lecky says the argument is absurd. Gratian's Parliament, Mr. Lecky continues, placed the Govera-ment of Ireland in the hands of the Protestant gentry, who were bound to the English convection by the closest ties of interests and sentiment, "Tasy were," adds Mr. Lacky, "pre-eminently the representatives of property, whose political power it has been Mr. Gladstone's steady object to destroy The effect of his scheme would be to throw the gorvernment of Ireland into the hands of men hitherto the avowed enemies of both property and the

CLOTURE ON THE HOME RULE DEBATE It is probable that the Conservatives will to-morrow move in the House of C mmons that cloture be applied to the home rule debate in order to secure a division of the sec-ond reading before Whitsuntide. It is not likely the government will oppose the motion.

IN THE HOUSE OF COMMONS

this afternoon Sir Michael Hicks-Beach, Conservative, pressed Mr. Gladstone to fix a da'e for a division on the second reading of the home rule bill. Mr. Henry Labouchere, Radical, protested against the fixing of an early date, announcing that twentyseven supro ters of the measure desired to speak before the vote. Mr. Charles Bradiaugh, Radical, supported Mr. Labouchers's protest. Mr. Gladstone fixed Monday as the date for a division.

The St. James Gazette says it does not think that it e semiments uttered by Mr. Blaine expr st the genuine pir ion of the Americans upon the Lush It adds that it is impossib e to formulate a scheme of home rule which would be satisfactory to the "extreme Ir sh Americana." Continu-ing, the Gasette says: "Mr. Gladatons is egger to snatch every semblance of support, h wever obscure and tainted. and does not her tate to recognize the opinions of United States pullers, thus giving the meddlesome throughout the world a locus standi in England's polities. HOME BULE SENTIMENT IN AMERICA. The Times publishes a letter from a correspondent at St Louis, who says it is a clander upon the American po ple to say that 20,000,000, or even 10,000,000, of them are ready to back the Irish in their home-rule fight with either their money or their influence. The writer assets, "without fear of contradiction, that there are no! 1000 American b ra cit sens of the United States who have ever cont inued a cent to the bome rule." He sides: "No bome rule." He adds: "No particulate, mailed tree. Write them bome rule sympathy has been shown at once.

The sentiments of the purely Irish element in our cities must not be mistaken for the sentiments of the American people. Nine tenths of the leade's in the recent strikes in this country were Irish. A firm determination exists, if these labor agitations carried on by foreign-born men continue, to firm a party of native-born Americans only to see that none but natives of this land obtain offices of trust or power.

NEW YORK ANARCHISTS Subdued by the Severe Punishment Inflicted on Most.

New York, June 3.-The severe punishment inflicted on Most and his accomplices has alleady caused good results. Two Anarchist meetings which took place last night were fail-ures, because none of the leaders could be induced to speak. They were branded as cowards, and finally a small, red-headed man, with bushy hair, excitedly declared his intention to address the mee ing as Most was wont to do, but after he spoke a few words in denunciation of Recorder Smythe, his words were very mild. The men began leaving the ball, and a man jumped up and shouted for the men to keep their seats, as a collection to make up Most's \$500 fine would be taken up. This brought f rih protests from three members. One of them remarked that Most could well afford to pay his fine, as he had made handsome pr fi's on his newspaper and rifles. The three men left the ball, and then a small man went around with his hat and \$35 was collected for

THE FISHERIES. British War Ships Watching the American Fishermen,

New York, June 3.- A Digby, N. S, special to the Commercial Advertiser says: "Two of the police cru sers have gone to Newfoundland to watch the American fishermen. Yesterday a dispatch was received from St. Johns, N. F., that two American schoners, heavily semed, were in that neighborhood, boasting that they would sink any police boat sent against them. One of them is believed to be the New York schooner Herrick. The Dominion fishermen are alarmed lest these Yankee brats may take it into their heads to practice upon some of their craft. The man-of-war Belle-rophen had been sent to St. Johns to look these combative Americans up. Capt. GALVESTON, TEX., June 3 .- The News this morning contains crop reports from 200 points in eighty counties in Texas, embracing the entire cotton, corn and small gra n sections right man, but was led through of the State. The acresg a under cultivation shows an increase over 1885 approximating 12 per cent. The severaly cold weather of the winter and early spring inflicted serious injury upon wheat, and many counties report lesses of nearly 30 per cent. Oats, in consequence of the droath, are in a number of counties a complete failure, and the entire crop will net amount to more than half the sield of last year. Corn is needing rain, but in most localities has not yet sustained serious damage. Cotton, though about two weeks late on an average and small, except in the coast counties where the plant has com-menced blooming, is clean and free of grass and weeds and has not yet sustained any injury of any consequence on account of dry weather.

STRICTLY PARLIAMENTARY. What Mr. Blaine Really Said About Lord Salisbury.

Augusta, Mr., June 3.—The Kennebec Journal this marning publishes a letter from Mr. B sine denying that in his recent speech at Portland be had applied the words "impudent," "ins lent" and "brutal" to Lord Salisbury. Mr. Blaine writes: "I was referring to his lordship's declaration that the Irish might remain as they now are or emigrate, and I said interrogatively: 'Is not this an impudent pr position? Is it not inscient in its erms? Does it, indeed, stop short of being brutsl in its cruelty?" It is parliamentary to say that a statement is not true, but altogether unparliamentary to say that its author is guilty of falcehood. The first describes the thing; the second a sails the person. My characterization was simed at the proposition, and not at Lord Salisbury personally.

The Davis cottage is si uated about one half mile east of the Deer Park Hotel, in the midst of a group of cottages, awong which those of Mr. Harrison Garet, Miss Mary Garrett, daughter of the late John W. Garrett, and Stephen B El-kins are the most conspicuous. It is a large, two-story frame house, con-structed especially by the owner for the use of his family in the summer. It is in the center of a grove and is upon one of the finest drive ways, for y miles of which has recently been constructed through the grove and park. The President and bride will find abundant use for the horses with which his friends have provided them in this mount in retreat. The drives are a charming feature of the place, the roads being particularly well constructed and as nooth and even as race tracks. President will not be an oyed by the presence of guests at the hotels at Deer Park and Oakland, as these hoels do not open until late in June.

Disappointed Sight-Secre Washington, June 3.—Nearly 2000 persons, principally ladies, entered the White-House grounds to-day in the hope of being able to inspect the floral decorations, and particularly the Blue Room, where the marriage was solemnized last evening. They began to arrive before 9 o'clock and contin-ued to come in groups until af er noon. All, however, were doomed to disappointment, and none of them were able to get farther than the main en-trance. Here the progress was arrested by the door-keepers, who in-formed them that the house was closed for the day and that orders had been is used by Col, Lamont to ad nit nobody except on public business. Inside, workmen hat been engaged for nearly an hour, removing the tropi-cal plants and all floral decorations and clearing the house generally. This work consumed a veral hours, but was fully completed by 1 o'clock, and there was nothing left in the general appearance of the rooms to indicate that a Presidential wedding had occurred but a few hours before. "FOR FORTY YEARS I have been a victim to UATARRH—three-fourths of the time a sufferer from EXCRUCIATING PAINS AGROSS MY FOREHEAD AND MY NOSTRELS. The discharges were so offensive that I besitate to mention it except for the good it may do some other sufferer. I have spent a young fortune from my earnings during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—every one I could learn of—from the four corners of the earth, with no relief. And AT LAST (57 years of age) have met with a remedy that has cured me entirely—made me a new man. I weighed 125 pounds, and now weigh 146. I used thirteen bottles of the medicine, and the only regret I have is, that being in the humble walks of life I may not have influence to prevail on all catarrh sufferers to use what has cured me-Guina's Pioneer Blood Renewer.
